HOW TO USE THIS BOOK

This book provides space for 180 days of comprehensive homeschool planner/journal entries. They are self-explanatory and adaptable for homeschoolers or involved parents who are tracking or supplementing the education of traditional school students. The book includes an attendance calendar, forms to document the syllabus/textbooks/materials for each subject, and fields to document other pieces of information which may be requested and/or required by government or school officials.

The point of homeschooling is that every child and his/her educational needs are unique. With that in mind, parents should utilize and adapt this book as they feel is best. One suggestion is to use future daily entries for advance planning. As those days arrive, the *Notes* field for each subject can be notated with a checkmark if all went according to plan, or can be used to notate topics that weren't fully covered or need to be revisited later.

ABOUT THE AUTHOR AND COMPANION WEBSITE

Larry Zafran was born and raised in Queens, NY where he tutored and taught math in public and private schools. He has a Bachelors Degree in Computer Science from Queens College, and most of the credits toward a Masters Degree in Secondary Math Education. He is a dedicated student of the piano, and the leader of a large and active group of board game players that focuses on strategy games from Europe. He lives with his fiancée in Cary, NC where he works as an independent math tutor, writer, and webmaster. Please visit www.LarryZafran.com for information about the author's published and upcoming books, or to discuss this book, or to download additional printable pages at no cost.
